

**Leader in Training on Project Management, ITIL, COBIT,
Information Security & Audit, ISO 27001, BCP, DR and
Corporate Governance**

K-Ninety East Africa Ltd is pleased to announce the following courses in Kenya between June 2009 and October 2009:

Project Management Professional June 16th – 19th 2009, Nairobi

Course fulfills the PMI 35 PDU requirement to write PMP certification. Gives deep insight into the project management best practices as defined in the globally renowned Project Management Body of Knowledge (PMBOK). Course is based on Latest version 4. PMII accredited course.

IS Audit Risk & Security Course June 22nd - 25th 2009, Nairobi

Covers elements of IS Audit and Security; Implementing ISO 27001 Security Standard; network Security; Implementing IS Governance using COBIT, ITIL and ISO 27001 and building Disaster Recovery and Business Continuity Plans

CISSP Bootcamp June 29th – July 3rd 2009, Nairobi

The course is to prepare those who would be sitting in Nairobi July 11th 2009 CISSP Examination.

PRINCE2 Foundation & Practitioner + Examination July 13th – 17th 2009, Nairobi

PRINCE2 is a method of managing projects. Helps you to work out who should be involved and what they will be responsible for. It gives a set of processes to work through, explains what information to gather along the way. Good projects which deliver quality results, on-time and within budget are dependent on the capabilities of people involved from the Project Board down to individual members. The course conforms to the syllabus for those wishing to gain both PRINCE2 Foundation & Practitioner level certification

IT Service Management Using ITIL V3 (Exin accredited) July 13th – 17th 2009, Nairobi

ITIL® is the best practice approach to IT Service Management. ITIL® describes an integrated, process based, best practice framework for managing IT services. To date, ITIL® is the only comprehensive, non-proprietary, publicly available guidance for IT Service Management. ITIL® defines the "What" for IT Service Management.

IT Business Manager Certification(ITBMC) July 13th – 17th 2009, Nairobi

The IT Leadership Institute provides practical insights and tools to help you enhance your technology management expertise. Presented by Mike Sisco an IT Manager and IT Leadership Institute of more than 20 years, the class follows his IT Management Process and provides a solid foundation on how to manage technology resources in a way that provides real value for your company.

Information Security Management August 3rd – 4th 2009, Nairobi

The course will provide detailed introduction to key information security areas and concepts.

Network Vulnerability Assessment Step-by-Step Approach August 5th – 6th 2009, Nairobi

The course will provide participants with practical methodology and approach to performing network vulnerability assessment.

Securing & Auditing Mobile & Wireless Technologies, Incident Response & Computer Forensic Investigation Analysis

August 7th – 8th 2009, Nairobi

The course focuses on the audit and security issues related to the use of Wireless and Mobile Technologies.

Enterprise Wide Risk Management September 14th – 15th 2009, Nairobi

The course enables organizations to develop and implement a consistent approach to managing risks across the entire organization.

Developing & Maintaining a Quality Assurance and Implementation Program September 16th – 17th 2009, Nairobi

The International Standards for the Professional Practice of Internal Auditing require Heads of Internal Audit to develop and maintain a quality assurance and improvement programme that covers all aspects of the internal audit activity. The Programme should enable an evaluation of internal audit's conformance with the IIA Professional Practices Framework. It should assess efficiencies and effectiveness and identify opportunities for improvement. The course helps head of internal audit to develop such programme and also helps them to prepare for an external Quality Assurance review

Certified Business Continuity Manager September 21st – 25th 2009, Nairobi

The course aims at analysis and mitigating risks and impacts that might endanger the existence of the organization. It is designed to introduce the countermeasures and protective steps before an event can cause such damage..

ISACA CISM Bootcamp Training October 12th – 16th 2009, Nairobi

The course is to prepare those who would be sitting 2009 ISACA CISM Certification Examination in December.
