

A Date with IT Forensic Security Guru!

@iLabAfrica IT Security Centre

Hans-Peter Merkel Msc. (Eng.) is an expert in **Computer and Data Forensics**. He is a lecturer at the **University of Cooperative Education, Lörrach (FRG)**, Faculty of Information & Software Technology, as well as a consultant to Law Enforcement Agencies. Hans has published widely in various **Linux Magazines** on topics in Computer Forensics. He is also the founder of the **Linux4Africa Project**. More information www.hpmerkel.de

On **16th January 2014** the presenter will give a demonstration on how hackers intrude computers or smartphones, stealing personal information and point out suitable counter measures. **17th and 18th January** will be dedicated to hands-on-training on **hacking** and **computer security**.

The event will take place at **Strathmore University**.
